PLEASE NOTE—Since we started to prepare this folder the demand for these fine Roses has exceeded our expectations. A number of varieties have been sold out in one or both grades and some varieties are in limited supply. This is particularly true of the patented sorts. When ordering advise if substitutions will be acceptable. Delivery date should be specified. We will be glad to hold your order in our modern cold storage for delivery in perfect condition when you want them.

## Patented Roses

All patented varieties are being grown under license from patent owners. Prices are those listed by patent holders.

Wholesale prices are determined by the individual retail prices.

### PRICES—PATENTED ROSE VARIETIES FOR SEASON 1952-53

Retail (Per Variety)			Wholesale (Per Variety)			
Each	3 or (each)	25 or (each)	1 to 9	10 to 19	20 to 99	100 to 249

*Save . . .*

*Make More Profit*

The collections on the inside of this folder are designed to save you money and help you make a bigger profit. They will be filled with the same fine stock sent out on our regular orders. Selection of varieties will be made to give you a wide range of color.

Potting your Roses has many advantages. You deliver a better article to your customer, cut down losses and complaints and extend your selling season.

Use the grade best suited to your trade. No. 1 is, of course, the best, but for a lower-priced article or for late-season sales the No. 1½ grade is excellent. These are 2-yr., field-grown, all are blooming size but average slightly lighter than No. 1 grade. Many growers find them profitable.

All Roses we offer are graded to AAN standards, budded on Multiflora. Printed labels are furnished for each Rose.
